 ottegardencenter.com

- Have Japanese beetles? We have the **Bonide** solution for you
- To keep your annual flowers looking their best all season feed weekly with **Monty's Pinch back**, feed (**Flower-tone**), and mulch mums
- Spray your tomatoes with **Rot Stop** to add calcium and prevent blossom end rot, check tomatoes for early signs of blight spray accordingly
- With increased temperatures watering is even more important. Check out our selection of **Neverkink hoses** and **Kinex watering supplies**
- You want to cut grass higher in the summer and ONLY FEED with SLOW release nitrogen. Products by **Espoma** are good to use
- Divide and reset irises, plant with **Bulb-tone**
- To keep your annual flowers looking their best all season feed weekly with **Monty's**
- Keep an eye on houseplants you have set outside. You don't want to let them get too dry or infested with bugs
- Summer is also the season for bugs. Check for bag worms, tent caterpillars, scales, lace bugs, spider mites, and much more. We are here to help. If you have questions, please take a picture and up load it to Facebook, or you can bring it into the store.
- Protect your family with **Mosquito Beater** safe and easy to use

- Remember to feed roses monthly with **Rose-tone** to keep them performing their best
- Remember mulch helps with moisture retention too. Make sure everything has a nice layer of mulch around it to retain moisture and keep soil cooler. Also, when mulching remember to put down weed control granules (**Easy Weeder**) so you don't have to pull weeds all summer
- Dead head or cut back flowers and roses to encourage reblooming and thicken up plants. Once again we are here to help. If you are unsure please take a picture and upload it to Facebook or come into the store. Along with deadheading feed them a slow release granule like **Flower-tone**
- Remember to water. Check out our selection of **Kinex watering supplies**
- Spray **Sedge Ender** to kill nutgrass and crabgrass
- Spray your tomatoes with **Rot Stop** to add calcium and prevent blossom end rot
- Use **Osmocote** in all your pots and planters to feed up to 6 months
- Replace cheap cracked leaky hoses with good quality **NeverKink Hoses**
- Start your fall cole crops inside now
